

## Postdoctoral Fellowship in Fertility and Reproductive Health at NIH National Institute of Environmental Health Sciences

We are seeking a candidate with training and experience in **perinatal epidemiology** for a **postdoctoral fellowship** in the **Fertility and Reproductive Health Group** (**Principal Investigator (PI): Anne Marie Jukic, Ph.D.**) in the **Epidemiology Branch** at the **NIH National Institute of Environmental Health Sciences (NIEHS)**. The successful candidate will have a strong background in epidemiology and statistical modeling. Experience in environmental health sciences, questionnaire design and implementation, mixtures modeling, and biomarker studies preferred.

The postdoctoral fellow will work with the PI to develop a research portfolio that fits their interests and training goals. Potential research areas include 1) a clinical trial of vitamin D and menstrual cycles; 2) air pollution, climate, and fertility; or 3) biomarkers of early placental health.

The fellow's time will be devoted to data analysis, manuscript preparation, and career development (e.g., grant application workshops, teaching workshops, etc.). Fellows at NIEHS are encouraged to build on existing resources to develop new projects that become the basis for transition to independent research awards, K99/R00, and non-NIH research grants. The training environment is enriched by proximity and access to local universities (e.g., University of North Carolina at Chapel Hill, North Carolina Central University, North Carolina State University, and Duke University). Opportunities for mentoring undergraduate and graduate students are available. NIEHS offers comprehensive training and career development opportunities for fellows.

## **TO APPLY:**

Candidates who can contribute to the diversity and excellence of our research program are strongly encouraged to apply. Salary and benefits are highly competitive. Initial appointments will be two years at NIEHS in **Research Triangle Park**, **North Carolina**, with additional time (up to five years) depending on eligibility and productivity. This position is subject to a background investigation. Applicants should submit the following materials to <a href="mailto:jukica@niehs.nih.gov">jukica@niehs.nih.gov</a>:

- Statement describing areas of research interest.
- Curriculum vitae with bibliography.
- Copies of one to two recent publications.
- Contact information for three persons serving as references.
